

All the structures look like similar.  
Our difference is  
our mentality!

## About Us

Berko

unite their experiences, expert teams and equipment

for this project.

### Berko İnşaat

With the performance it displayed within such a short time following its establishment, Berko İnşaat made his name in the construction market. It also adapts in accordance with this speed in terms of technical team and equipment and it has started to determine the future related strategies in a more effective manner. The fact that the intra company organization is dynamic and it focuses on targets enables us to reinforce our place in the modern competitive market within a short time. And that we act with our motto “First of all, human” really shortens this process.
